

Abdallah A. A. Eleyan

SOFTWARE ENGINEER

Dammam, Saudi Arabia | abdullahelian@hotmail.com | +966508274452

SUMMARY

Software Engineering graduate experienced in full-stack web and mobile app development using Python (Django), Node.js (Next.js), and Dart (Flutter/Firebase). Skilled in building and deploying end-to-end systems and seeking a developer role to contribute to innovative software projects.

WORK EXPERIENCE

Home Automation Engineer Intern – Al Rayah Company, Dammam

Jul 2025 - Oct 2025

Configured and programmed KNX systems using ETS and Vimar for lighting, AC, and shutters, ensuring correct device communication and automation logic. Helped test, troubleshoot, and integrate mobile control through the Vimar app across real projects.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

- Built a responsive Next.js portfolio with TypeScript, Tailwind CSS, and smooth GSAP/Framer Motion animations.

ELECTRONICS REPAIR SERVICES SYSTEM (FYP)

- Built a Flutter + Firebase app for customers to track requests, chat with shops, and receive real-time notifications.

SMART WASTE REPORTING SYSTEM

- Built a Django-based web system for issue reporting with automated admin notifications
